A calmer way to move.

Make a plan. Give every box a home. Keep the things you need within reach.

THIS MOVE BELONGS TO

MOVE DATE

FIRST NIGHT AT THE NEW PLACE

MOVE-DAY CONTACT / PHONE

START WITH THREE SMALL STEPS

01 **Choose a room key.**

Use page 3 to name the destination rooms. Pick short box IDs, such as KIT-01 or BED-02.

02 **Record before you close.**

List the box and its important contents on pages 4-5. Copy the same ID onto its label.

03 **Check it out. Check it in.**

Mark packed, loaded and arrived. Keep the first-night bag and this paper kit with you.

Paper works on its own. Optional TuckTag use: save a container in the app, copy its exact code onto your sheet, then print its QR label from the app. These blank sheets do not contain scannable QR codes or link themselves to the app.

Print the pages you need, single-sided, at Actual Size / 100%. Choose the file that matches your paper. Repeat inventory pages as needed. Labels are cut-out paper labels, not a commercial adhesive-sheet template.

Box labels

Cut on the dashed outlines. Tape one label to the top and, if useful, another to a visible side. Print more as needed.

THIS BOX GOES TO

BOX ID

MAIN CONTENTS

- [ ] Open first
- [ ] Handle with care

Optional: attach a QR label printed from your saved TuckTag container beside this label. Keep the QR clear and readable.

Optional: attach a QR label printed from your saved TuckTag container beside this label. Keep the QR clear and readable.

Open first

Keep these boxes easy to reach. Cut out a marker and attach it beside the matching box label; do not cover an app QR.
